

Current Report No 05/2026  
20 March 2026

### **Potential acquisition of operating farming assets**

ASTARTA HOLDING PLC (hereinafter “Astarta” or the “Company”), a leading Ukrainian agro-industrial holding, announces that its subsidiary, Acor Investments Limited (Nicosia, Cyprus), has received clearance by the Antimonopoly Committee of Ukraine (“AMCU”) to acquire control over two Ukrainian farming entities: LLC Enterprise “Vidrodzhennya” and LLC “Orion Moloko”.

Such acquisition, if completed, would grant Astarta decisive influence over the assets of these entities (primarily land lease rights to arable land situated in close proximity to Astarta’s main operating assets in the Poltava region) within the meaning of applicable competition law.

The submission to the AMCU was a procedural step enabling the parties to continue evaluating the feasibility of the transaction. At the date of this report, no definitive agreement has been concluded.

The Company will provide further updates in accordance with its disclosure obligations under MAR and the Polish Act on Public Offering.
